01 / START WITH YOUR EVERYDAY

Made for your kind of day.

A friendly guide to choosing a look you love, with the technical checks handled by our team.

Choose how you want it to feel

Start with your daily life: city errands, school runs, commuting or longer weekends away. Tell us whether comfort, easy cleaning or a more distinctive look matters most to you.

Share an AVORA design or a photo you like. A simple, open design may make cleaning easier. Ask to see the finish in daylight and discuss how it works with your car’s color.

Send us three simple things

Your car. Make, model and year, if known. Mention changes to the brakes or suspension; “I’m not sure” is a useful answer too.

A few photos. One of the whole car, one of a wheel and a close-up of the numbers on the tire’s side. Take photos while safely parked. You do not need to remove a wheel or measure the brakes.

Your preferences. Your favorite design or finish, typical roads and anything you want to improve. You do not need to know wheel codes or technical measurements.

Let us confirm the details

Our team and your installer need to confirm the correct size, tire combination, strength and clearance before you order. A larger wheel can change the feel of the ride, so discuss comfort as well as appearance.

Before paying, ask what is included: wheels, tires, installation, delivery and any extra parts. Keep the confirmed order and ask your installer to explain the first follow-up visit.

A SIMPLE NEXT STEP

Fill in the short notes on the next page and attach your photos separately. Leave anything you do not know blank; we will help you work through it.

02 / YOUR PREFERENCES

Tell us what you love.

A few details are enough to start a conversation. There is no need to measure your car.

Your name

Email or preferred contact

Your car: make / model / year, if known

A favorite AVORA design, finish or inspiration photo

What matters most? Comfort / easy care / appearance / something else

Everyday driving: city / longer trips / road conditions

Anything changed on the car? “Not sure” is fine.

Your questions / photos you will attach separately

REFERENCE NOTES

Original AVORA guide, informed by the sources below and the supplied wheel user manual. References explain general principles; vehicle-specific instructions take priority.

03 / YOUR OPTIONAL CUSTOMIZATION REQUEST

Your size. Your words.

Planning a new order or a change? Share these preferences with the AVORA team.

Would you like to change your tire size?

- ○ No — I plan to keep my current tires.
- ○ Yes — I'd like larger or smaller tires.

If no: current tire size (front / rear)

If yes: preferred new tire size (front / rear)

Example: 235/45 R19. This is a preference; our team will check the size before you order.

Text to customize (optional): a name, initials, a date…

Choose one lettering style if you requested custom text.

- ○ **Modern minimal**
  Montserrat — Your words
- ○ **Elegant serif**
  Cormorant Garamond — Your words
- ○ **Handwritten signature**
  Dancing Script — Your words
- ○ **Bold condensed**
  Oswald — Your words
- ○ **Upload my own font or reference**

Your file name (attach the font, image or PDF with your inquiry)

Preview your wording in four fonts on the AVORA website, or upload your own style. Final lettering size, placement and artwork are confirmed with you before production.

Send this saved sheet with your vehicle details to sales@welldoneforged.com.
